

Activity 18

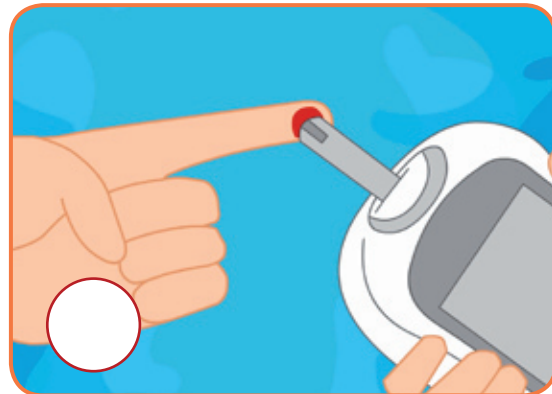

Level 1

Title: Picture story

Place the pictures in the right order.

These are things that Carol does, every day, before each meal. Can you help her put them in the right order?

It's lunchtime and Carol's hungry. So, she washes her hands and measures her glucose level. She decides how much insulin she needs, injects the right amount and sits down, at the table. She's hoping she'll be lucky and there'll be something really yummy for lunch!
